

2010 Annual Club Campaign Investment Challenge

How much is your club willing to invest in the lives of women and girls? In their dreams? In their futures?

When you give to the Annual Club Campaign it's a high-yield investment. You contribute to the strength of countless women and to our organization, providing intangible assets that only grow in value, today and years into the future.

This year, increase your contribution to the 2010 Annual Club Campaign. By increasing your investment in women and girls your club will have the opportunity to have that investment pay greater dividends for the club.

Who is Eligible? Any club contributing to the Annual Club Campaign between June 1, 2009 and May 31, 2010.

How does our club qualify? Your club must increase its 2009 contribution by one recognition level in order to be entered in the drawing. That is:

- First Time Bronze level
- Bronze to Silver
- Silver to Gold
- Repeating Gold

Once qualified, your club can earn additional entries for:

- An increase of two recognition levels; for example, bronze to gold.
- Repeating gold
- One additional entry for every year the club contributed to the Annual Club Campaign at recognition level since 2005.

How will our club know how many entries it has earned? Headquarters will determine the number of entries for each club. Clubs will be notified of their entries via email.
