

## Changing the SIA Online Member Password

- For security purposes, we strongly urge members to change their initial password. (Each member's login and *initial* password is your six-digit member number.)
- You will receive an automated email from *imis@advsol.com* to the email address we have in your profile in our database with your login and new password. Please keep this information in a safe place. SIA headquarters cannot access or track changed passwords and can only reset passwords to your member ID number. Do not share your password with anyone.
- Don't forget to log out at the end of your session in the members section—especially if you are using an unsecured public computer!

Click the "Security" button above the profile on the far right.
